SUMMARY

Security operations professional with hands-on experience designing incident reporting and SOP frameworks across multi-site environments, most recently at a marine logistics firm. Combines a Homeland Security graduate background in maritime/critical infrastructure security with practical experience building reporting systems, streamlining hiring workflows, and coordinating between on-ground security agencies and management. Seeking a full-time role in security operations, risk & compliance, or safety-security management.

WORK EXPERIENCE

Security Intern — Seabird Marine Services Pvt. Ltd. *Apr 2026 – Present*

- Coordinated between on-site deployed security agencies, guard forces, and company management across multiple operational sites, acting as the primary liaison for day-to-day security issues and escalations.
- Designed and implemented a standardized incident-logging structure adopted across all sites, replacing ad hoc reporting with a consistent format for capturing, categorizing, and tracking incidents.
- Built and maintained monthly and quarterly (Q1) incident reports and dashboards, consolidating Daily Situational Reports (DSRs) into leadership-ready summaries for trend visibility and decision-making.
- Streamlined the security guard interview and selection process, improving consistency in candidate evaluation, and contributed to SOPs for guard duties including frisking and access-checking protocols.

Security and Vigilance Intern — Patel Infrastructure Ltd. *May 2025 – Jul 2025*

- Prevented loss and misappropriation of high-value construction materials (aggregates, asphalt, equipment) through vigilant site inspections and stringent perimeter control measures.
- Managed proactive CCTV monitoring and access control protocols to enhance site security, safeguard company assets, and enforce safety standards.

Student Trainee — North Eastern Police Academy *Dec 2025*

- Studied OSINT and digital forensics frameworks with a focus on blockchain/cryptocurrency investigations, and examined organized crime and policing systems through field drills on operational protocols.

Student Trainee — Adani Ports Ltd. *Mar 2025 – Apr 2025*

- Analysed multi-layered port security operations — including facial recognition, surveillance systems, and ISPS Code compliance — and observed Indian Coast Guard vessel operations and AIS technology.

Cyber Crime Analyst — Digital Task Force *Feb 2024 – Jul 2024*

- Collaborated with local law enforcement and private clients to analyse and certify digital evidence for legal proceedings, issuing 65B certificates to ensure legal admissibility in court.
- Assisted in complex cybercrime investigations, maintaining strict chain-of-custody and legal evidentiary standards.

EDUCATION

MSc in Homeland Security — National Forensic Sciences University *2024 – 2026*

Relevant coursework: Critical Infrastructure Protection, Cyber Security, Risk & Vulnerability Analysis, Maritime & Border Security. Specialized training in forensic methodology and applied security technologies.

BSc — Savitribai Phule Pune University *2021 – 2024*

Key coursework: Digital Forensics, Ethical Hacking, Network Security, Cryptography, Cyber Law. Project work in digital evidence collection, preservation, and analysis.

CORE SKILLS

Security Operations: Incident Reporting & Investigation, SOP Development, Risk Mitigation, Access Control, CCTV Surveillance, Multi-Site Coordination, Guard Force Management

Maritime & Infrastructure: ISPS Code Compliance, AIS Technology, Critical Infrastructure Protection, Maritime & Border Security

Digital & Investigative: Digital Forensics, OSINT, Cybercrime Investigation, Evidence Analysis & Legal Admissibility (65B Certification), Threat Intelligence

Tools & Reporting: Incident Dashboards, Monthly/Quarterly Reporting, Excel, PowerPoint Reporting

Projects: IAM-MFA (Creator) — TOTP-based two-factor auth web app, Python/Flask + JavaScript; Cybersecurity Career Entry Platform (Contributor)

Languages: English, Hindi, Marathi

CERTIFICATIONS & AFFILIATIONS

Student Member, ASIS International • Security Operations and the Defence Analyst (Coursera) • Play It Safe: Manage Security Risks (Coursera) • Introduction to Cybersecurity Tools & Cyber Attacks (Coursera) • Advent of Cyber 2023 (TryHackMe) • Participant, ISRO Cyberspace Competition • Decoding West Asia, Chanakya Policy Research Foundation
